COMFORT. BEAUTY. FUNCIONALITY.

E.C.T DISTRIBUTION LTD products can ensure you a perfect drainage system thanks to great detail attention, modern design and high quality materials.
 Funcnality, safety and modern design - this is what new line of E.C.T DISTRIBUTION LTD products offers

SILVER SERIES

Shower drain "KF" with flange (plastic drain fitting)

Basic features:

- plastic drain fitting
- 11 decorative patterns of lids
- fantastic detail finishing
- cuff (flange) makes drain tight and helps during drain assembly
- tile top option

Drain with flange is the most popular solution for bathrooms, saunas and swimmingpools.

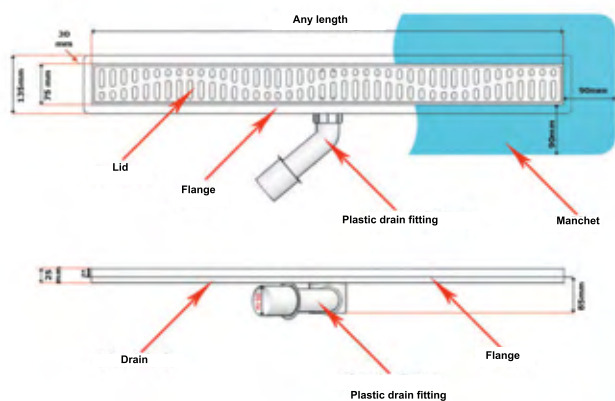

When shower drain is connected to sewage system, floor can be covered with concrete. We should remember to provide correct spirit level 1,5-2% of run off. We suggest to use a special sealing cuff which will additionally secure drain.

Shower drain with plastic drain fitting Φ 50

length / index	height to flange	width	Φ
500 KF_p	85 mm	75 mm	50
600 KF_p	85 mm	75 mm	50
700 KF_p	85 mm	75 mm	50
